

Endpoints API - JobbingTrack

Liste exhaustive de tous les endpoints disponibles dans l'API JobbingTrack v4.1.

[← Retour à la documentation](#) | [← README principal](#) |  [Navigation](#)

Vue d'ensemble

Cette section liste tous les endpoints disponibles par service avec leurs méthodes HTTP, paramètres et codes de réponse.

API Gateway Health

Endpoints système

```
GET /health
GET /metrics
GET /ready
GET /version
```

Authentification (Port 3001)

Sessions

```
POST /auth/login
POST /auth/register
POST /auth/logout
GET /auth/verify
POST /auth/refresh
POST /auth/forgot-password
POST /auth/reset-password
```

Utilisateurs

```
GET /auth/users
GET /auth/users/{id}
```

```
POST    /auth/users
PUT     /auth/users/{id}
DELETE  /auth/users/{id}
```

Applications (Port 3002)

CRUD Applications

```
GET     /applications
GET     /applications/{id}
POST    /applications
PUT     /applications/{id}
DELETE  /applications/{id}
```

Actions

```
GET     /applications/{id}/status
PUT     /applications/{id}/status
GET     /applications/{id}/history
POST    /applications/{id}/archive
POST    /applications/{id}/restore
```

Recherche et filtres

```
GET     /applications/search
GET     /applications/export
GET     /applications/statistics
```

Entreprises (Port 3003)

CRUD Companies

```
GET     /companies
GET     /companies/{id}
POST    /companies
```

```
PUT    /companies/{id}
DELETE /companies/{id}
```

Recherche

```
GET    /companies/search
GET    /companies/{id}/contacts
GET    /companies/{id}/applications
```

Contacts (Port 3004)

CRUD Contacts

```
GET    /contacts
GET    /contacts/{id}
POST   /contacts
PUT    /contacts/{id}
DELETE /contacts/{id}
```

Relations

```
GET    /contacts/{id}/companies
GET    /contacts/{id}/applications
GET    /contacts/{id}/interviews
GET    /contacts/{id}/calls
GET    /contacts/{id}/events
GET    /contacts/{id}/history
```

Entretiens (Port 3005)

CRUD Interviews

```
GET    /interviews
GET    /interviews/{id}
POST   /interviews
```

```
PUT    /interviews/{id}
DELETE /interviews/{id}
```

Planning

```
GET    /interviews/upcoming
GET    /interviews/today
GET    /interviews/calendar
POST   /interviews/{id}/reschedule
POST   /interviews/{id}/cancel
```

Notes et feedback

```
POST   /interviews/{id}/notes
GET     /interviews/{id}/feedback
PUT     /interviews/{id}/rating
```

Appels (Port 3006)

CRUD Calls

```
GET    /calls
GET    /calls/{id}
POST   /calls
PUT    /calls/{id}
DELETE /calls/{id}
```

Historique

```
GET    /calls/history
GET    /calls/scheduled
GET    /calls/missed
POST   /calls/{id}/complete
```

Événements (Port 3007)

CRUD Events

```
GET    /events
GET    /events/{id}
POST   /events
PUT    /events/{id}
DELETE /events/{id}
```

Calendrier

```
GET    /events/calendar
GET    /events/upcoming
GET    /events/today
GET    /events/month/{year}/{month}
```

Suivi (Port 3008)

CRUD Followups

```
GET    /followups
GET    /followups/{id}
POST   /followups
PUT    /followups/{id}
DELETE /followups/{id}
```

Actions

```
POST   /followups/{id}/complete
POST   /followups/{id}/postpone
GET    /followups/due
GET    /followups/overdue
```

Profils (Port 3009)

Profil utilisateur

```
GET    /profiles/me
PUT    /profiles/me
POST   /profiles/avatar
DELETE /profiles/avatar
```

Préférences

```
GET    /profiles/preferences
PUT    /profiles/preferences
GET    /profiles/settings
PUT    /profiles/settings
```

Notifications (Port 3010)

CRUD Notifications

```
GET    /notifications
GET    /notifications/{id}
PUT    /notifications/{id}/read
DELETE /notifications/{id}
```

Paramètres

```
GET    /notifications/settings
PUT    /notifications/settings
POST   /notifications/test
```

Workflows (Port 3011)

CRUD Workflows

```
GET    /workflows
GET    /workflows/{id}
POST   /workflows
PUT    /workflows/{id}
DELETE /workflows/{id}
```

Exécution

```
POST   /workflows/{id}/execute
GET    /workflows/{id}/runs
GET    /workflows/{id}/logs
```

Dashboard (Port 3012)

Analytics

```
GET    /dashboard/overview
GET    /dashboard/analytics
GET    /dashboard/metrics
GET    /dashboard/statistics
```

Rapports

```
GET    /dashboard/reports
POST   /dashboard/reports
GET    /dashboard/reports/{id}
```

Export

```
POST   /dashboard/export
GET    /dashboard/export/{id}
```

Sécurité (Port 3013)

Audit

```
GET    /security/audit
GET    /security/audit/{id}
POST   /security/audit/search
```

Alertes

```
GET    /security/alerts
POST   /security/alerts
PUT    /security/alerts/{id}
DELETE /security/alerts/{id}
```

Sessions

```
GET    /security/sessions
DELETE /security/sessions/{id}
POST   /security/sessions/revoke-all
```

Métriques système (Port 3018)

Métriques

```
GET    /system-metrics
GET    /system-metrics/{service}
GET    /system-metrics/history
GET    /system-metrics/performance
```

Alertes

```
GET    /system-metrics/alerts
POST   /system-metrics/alerts
PUT    /system-metrics/alerts/{id}
DELETE /system-metrics/alerts/{id}
```

Déploiement (Port 3016)

Status

```
GET    /deployment/status
GET    /deployment/services
GET    /deployment/health
```

Actions

```
POST   /deployment/deploy
POST   /deployment/rollback
POST   /deployment/restart
POST   /deployment/stop
POST   /deployment/start
```

Historique

```
GET    /deployment/history
GET    /deployment/history/{id}
GET    /deployment/logs
```

Docker Stats (Port 3015)

Statistiques

```
GET    /docker-stats
GET    /docker-stats/containers
GET    /docker-stats/images
GET    /docker-stats/volumes
GET    /docker-stats/networks
```

Monitoring

```
GET    /docker-stats/monitoring
GET    /docker-stats/resources
GET    /docker-stats/performance
```

Codes de réponse HTTP

Réponses de succès

- **200 OK** : Requête réussie
- **201 Created** : Ressource créée
- **204 No Content** : Succès sans contenu

Erreurs client

- **400 Bad Request** : Requête malformée
- **401 Unauthorized** : Authentification requise
- **403 Forbidden** : Accès refusé
- **404 Not Found** : Ressource introuvable
- **409 Conflict** : Conflit de données
- **422 Unprocessable Entity** : Validation échouée
- **429 Too Many Requests** : Limite atteinte

Erreurs serveur

- **500 Internal Server Error** : Erreur serveur
- **502 Bad Gateway** : Service indisponible
- **503 Service Unavailable** : Maintenance
- **504 Gateway Timeout** : Timeout

Filtres et paramètres

Pagination

```
?page=1&limit=20&sort=createdAt&order=desc
```

Filtres

```
?status=applied&companyId=123&dateFrom=2025-01-01&dateTo=2025-12-31
```

Recherche

```
?search=term&q=query&fields=name,description
```
